# A Message from Our Steering Committee

*Dear colleagues and friends,*

*Greetings! We are pleased to report in these pages on the progress of our Alliance and its accomplishments in the past year.*

*In only its second year of operation, the Alliance is doing exceptional work helping presidents and campuses bring their voices and perspectives to bear on immigration issues playing out in the courts, Congress and the administration -- matters that directly impact our students, campuses and communities. With your support, the Alliance is able to help campus leaders and our many allies stay up to date on these fast-changing developments in immigration policies and practices, coordinate actions and activities in response, and plan for future opportunities to engage on these matters.*

*It is a true privilege to be able to work together with you to build this Alliance as part of our shared commitment to supporting immigrant and international students. The growing roll of college and university presidents who are part of the Alliance attests to the importance of these issues for our campuses and communities and to the value presidents find in being part of the Alliance. Together we underscore our sector's steadfast belief in the important role that immigration, international students, and access to higher education play in determining the future of our nation and planet.*

*We are grateful to our executive director, Dr. Miriam Feldblum, and her staff for their work on behalf of the Alliance and for the efforts of all members of the Alliance Team, including, you, our president members and partners, whose feedback, ideas and efforts on your campuses and in Washington make us a stronger and more effective Alliance.*

*We have ambitious plans for 2020 and beyond. We are confident that with your support, the Presidents' Alliance on Higher Education and Immigration will continue to be a strong and influential voice on immigration matters for presidents and their students, campuses and communities.*

## Our Mission

We are a nonpartisan alliance of American college and university leaders speaking out and taking action to support immigration policies and practices that foster a welcoming and effective educational experience for immigrant, undocumented, and international students.

Through advocacy, education, and the development of best practice we:

- Inform the public and policymakers about the value and contributions of international and immigrant students and scholars to our campuses, communities and nation.
- Improve how we support immigrant and international students on our campuses, including by sharing best practices with each other.
- Support the consideration and adoption of immigration policies and practices as well as relevant state policies that honor our values and commitments as educational institutions and press for re-examination of those that do not.

We envision a United States where:

- There is strong, active public support for sound, just immigration policy that is true to our values, advances our economic vitality, and supports our engagement with the world.
- Strategic and resilient immigration policies and practices prevail at every level that support better outcomes and commonsense reform by engaging influencers and stakeholders across the country.
- College and university leaders in every state and community are aware of and use their voice to advance immigration policies and practices that uphold the values of tolerance and openness that underpin U.S. higher education.

## Presidents' Alliance at a Glance

The nonpartisan Presidents' Alliance was established in 2017 by 29 founding U.S. university and college leaders and has grown to more than 400 members.

Among our members are institutions in all major categories of U.S. higher education, together educating more than five million students in 41 states, the District of Columbia, and Puerto Rico. The Alliance is a partner project of the nonprofit National Center for Civic Innovation, a 501(c)(3) organization. The Alliance represents a unique and intersectional voice on immigration issues that affect undocumented, immigrant, and international students and scholars in the United States.

- *We have a singular focus*, leveraging expertise and nimble approach, to address policies and actions at the intersection of higher education and immigration.
- *We are both leader-driven and inclusive*, supporting the collective voice and influence of college and university leaders and facilitating community-level advocacy.
- *We are comprehensive*, addressing issues at all levels—campus, state, and federal—and in multiple spheres—legislative, legal, messaging, and programmatic.

Our major areas of work:

- Outreach to the public and policy makers about what is at stake in national immigration policy; and best practices for higher education institutions and the students and communities they serve.
- Develop and share best-practices, strategies and resources for addressing institution level challenges to better serve and support immigrant, undocumented and international students and other similarly-situated, university-connected individuals.
- Work in partnership with other organizations and associations concerned about our priority areas to influence legislative and policy developments; engage in the legal landscape to support students; and communicate a positive narrative about the importance of serving immigrant and international students, including the highlighting of current and historic contributions. Finally, we spotlight the value and importance of just and reasonable national immigration policies.

- *Communication with Members*

- *Social Media Presence*  
The Alliance continues to expand our social media presence and activity on [Twitter](#), including increasing the number of regular tweets; increasing followers by over 400 since January of 2019; participating in partner town halls, and developing sample and template tweets for allies and partners. ### INFLUENCING PUBLIC OPINION

Campaigns coordinated by the Alliance have resulted in the publication of more than a dozen opinion pieces on Alliance issues by university and college presidents.

## Litigation

- *Briefings and Outreach on Amicus Curiae*  
Conducted informational briefings and outreach and connected presidents and their institutions to opportunities to join *amicus curiae* briefs in immigration-related cases.

### DACA CASES @ SUPREME COURT

The Alliance coordinated informational briefs and outreach in August and September 2019 for an [amicus brief](#) in support of DACA cases in front of the Supreme Court, to which 165 institutions from 32 states and the District of Columbia signed on.

- *Amicus Briefs*  
Coordinated an *amicus* brief—including securing and supervising a pro bono law firm [Jenner & Block](#) to draft the brief—to support litigation challenging a new unlawful presence policy that adversely impacts international students. Sixty-six institutions and one community college governing board signed on the [amicus brief](#) filed in federal district court in December 2018. The judge in that case issued a preliminary nationwide injunction halting enforcement of the policy, which is still in effect.

With the leadership of the Alliance and the Fiscal Policy Institute, eleven economic, immigration, and research organizations filed [amicus briefs](#) in five different district court cases supporting a preliminary injunction of U.S. Citizenship and Immigration Services’ (USCIS’) final [public charge rule](#). The rule would dramatically change the meaning and effect of “public charge” grounds of admissibility to the United States.

- The Alliance coordinated an [amicus brief](#) in support of international students and Optional Practical Training in the *Washtech* case joined by 118 public and private institutions from 29 states. This coordination included securing and supervising a law firm, Jenner & Block, to draft the brief.

## Best Practices

- *Legal Services for Immigrant Students Pilot Program*  
The Alliance facilitated a successful pilot program initiative in Pennsylvania to establish legal services for immigrant students on a multi-institutional model, in coordination with CUNY Citizenship Now! (a university legal assistance program) and NextGen America (an environmental advocacy nonprofit and progressive political action organization); following the pilot program, the Alliance

commissioned an independent assessment of the pilot program.

- *Webinars & FAQs to Support Undocumented Students*  
Co-sponsored with TheDream.US and the UndocuScholars Project a webinar on supporting undocumented students on campus (October 2018) and on identifying funding for undocumented students (February 2019). Over 400 registrants, including from over 130 Presidents' Alliance member institutions, signed up for the two webinars.
- Produced two sets of FAQs on supporting undocumented students and Deferred Action for Childhood Arrivals (DACA) recipients on campus; and provided updates on in-state tuition and financial aid policies, and private college and university practices (November 2019).
- *Building Institutional Toolkits to Support Undocumented Graduate and Professional Students*  
The Alliance is coordinating a group of institutional members, including public and private universities, and organizations, including Council of Graduate Schools, TheDream.US and Immigrants Rising, to produce a set of customizable templates, guides, and FAQs to promote and encourage universities to admit, fund, and support undocumented graduate and professional students.
- *Presentations*  
The Alliance executive director has presented at conferences, including at NAFSA's annual conference, ACE international education group, Public Policy in the Era of the States conference, UndocuScholars Conference, University Alliance for Refugees and At-Risk Migrants launch, the inaugural Catalyst conference in California, Achieve the Dream conference (a community colleges national network) and other educational leadership summits.

## Organizational Strengthening

The Alliance held its first [national convening](#) in Washington, D.C., on April 1, 2019. College and university presidents and chancellors and other campus leaders from over forty institutions participated, with key Alliance partners, policy and legal experts, immigration coalition leaders, and researchers. Participants shared campus challenges, gained critical knowledge and tools, brainstormed strategies with key leaders in the field, and, throughout the day, provided [feedback and ideas](#) about Alliance initiatives and priorities. The discussions and input generated at the convening has informed the Alliance's path forward in each of our three work areas—advocacy (including a [policy roadmap](#)), education, and best practices. Five priorities emerged with particular clarity during the discussions:

1. The Alliance should include in its work specific policy goals and action-oriented initiatives (e.g. call-in days, *amicus* briefs, calls to action) in which members and campuses can participate. A bipartisan approach was encouraged.
2. The Alliance should deepen its engagements at the state and local levels on issues like in-state tuition, financial aid, and drivers' licenses.
3. The Alliance should continue to communicate timely information and updates with members on an ongoing basis and consider how to help members share that information with their key stakeholders.
4. The Alliance should continue to develop the higher education-immigration web-based informational guide ("higher education immigration hub") that we previewed at the convening.
5. The Alliance should cultivate a community of best practices for colleges and universities and continue to pursue pilot initiatives. Among the pressing topics highlighted were the barriers and challenges that undocumented/DACA students face in trying to pursue graduate and professional degrees and the role of community colleges as an educational pathway for undocumented and immigrant students.

## Our Supporters & Funders

We are deeply grateful to the many members that contributed to the Alliance through our voluntary annual institutional contribution program initiated in January 2019. Without your individual leadership and commitment, the Alliance would not exist. We also extend our great gratitude to the individual donors who stepped forward to support the Alliance and our work.

We are immensely grateful to the foundations and funders who believed in the importance of the Alliance and in the promise of higher education leaders coming together to support undocumented, immigrant and international students. The following foundations and funders have supported us in our early days and have played a key role in propelling our success.
